

BP TWIN TRAVEL CENTRES

CONCRETE REPAIRS

LOCATION

Kwinana Freeway
Baldivis, WA

CLIENT

Perkins

PROJECT MANAGER

Marc Cugini

DESCRIPTION

The BP Twin Travel Centres, the first of its kind in WA, is located in the Northbound and Southbound lanes of the Kwinana Freeway. In 2016, BUSS was contracted by Perkins to complete concrete repairs to the high traffic flow areas around the facilities.

The works comprised of multiple concrete repairs using cementitious and epoxy repair mortars, stainless steel reinforcing to stabilise the repairs and joint sealing to effected areas.

PRODUCT USED

- Parchem Nitomortar 903
- Parchem HB40

POINTS OF INTEREST

- Works completed with no disruption to the facilities operations; and
- Effective Traffic Management Plan in place.
